EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 5, the language "claim 2" has been changed to:--- claim 1----- for an obvious typographical error.

Allowable Subject Matter

Claims 1, and 3-29 are allowed.

The following is an examiner's statement of reasons for allowance: As noted therein, and as argued on page 7, the prior art of record at least fails to teach or suggests the seal element is to be inflated during drilling nor the hydraulic inflation system includes a fluid buffer to protect the inflatable element from excessive inflation forces.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
